| R.B.C.                                      | 06-08       | /hpf  | Nil                  | Microscopic               |
| Epithelial Cells                            | 01-02       | /hpf  | 00-05                | Microscopic               |
| Casts                                       | Absent      |       | Absent               | Microscopic               |
| Crystals                                    | Absent      |       | Absent               | Microscopic               |
| Bacteria                                    | Nil         |       | Nil                  |                           |
| Budding Yeast Cells                         | Nil         |       | Absent               | Microscopy                |

**Comments** :Urine analysis is one of the most useful laboratory tests as it identifies a wide range of medical conditions including renal damage, urinary tract infections,diabetes, hypertension and drug toxicity.

Correlate Clinically.

Laboratory is NABL Accredited
