**CLINICAL PATHOLOGY**

Test Name	Results	Units	Biological Reference Interval
Stool for Occult Blood <small>(Method: Guaiac based test)</small>	Absent		Negative

**Limitations:**

- Stool samples collected during menstrual bleeding, constipation induced bleeding , bleeding hemorrhoids or when rectal medication is used may cause positive results.
- Medicinal history to be elucidated to rule out drug-induced bleeding to avoid false positive interpretation.
- Diet containing peroxidases may induce false positive results.
- Dosages of Vitamin c more than 250mg per day will cause a false negative result.
